Davis Dyslexia Correction

Provides tools to overcome problems with reading, writing, and attention focus. These methods enable children and adults to recognize and control the mental processes that cause distorted perceptions of letters and words. Once students can be sure that their perceptions are accurate, they can resolve the underlying cause of their learning difficulties through methods that build upon their creative and imaginative strengths.

Attention Deficit Disorder Association

Attention Deficit Disorder Association, ADDA, provides information, resources and networking opportunities to help adults with Attention Deficit/Hyperactivity Disorder (AD/HD) lead better lives. We provide hope, empowerment and connections worldwide by bringing together science and the human experience for both adults with AD/HD and professionals who serve them.

Schools Attuned Program - All Kinds of Minds

The Schools Attuned Program is a professional development and service delivery program that helps educators acquire the knowledge and skills, and offers a system of innovative tools, to meet the diverse learning needs of K-12 students. The objective is to assist educators in using neuro-developmental content in their classrooms to create success at learning and provide hope and satisfaction for all struggling students. The Schools Attuned Program offers educators new methods for recognizing, understanding, and managing students with differences in learning and to help all of the students in their class succeed.

Recording for the Blind and Dyslexic

Serving all people with "print disabilities" — those who can't effectively read standard print because of a disability. 137,025 members worldwide, distributing 241,281 titles in 2004. Even more remarkable, more than 70 percent of membership — which includes students in kindergarten through graduate school, as well as working professionals — are recognized with learning disabilities.
